Day 4

Meals: Breakfast, Lunch, Dinner | Accommodation: Camp or lodge in Central Serengeti

Spend the day exploring Central Serengeti, one of the best year-round wildlife areas in Tanzania. This region is especially good for predators, so it is a strong day for travelers hoping to see lion and leopard. You may also see elephants, buffalo, hyenas, cheetahs, hippos, and large numbers of plains game. Your guide will follow wildlife movements and help position you for the best sightings, making this one of the key days of your 7 day Big Five safari. Return to camp in the evening for dinner and overnight.

Serengeti to Ngorongoro Conservation Area

Day 5

Meals: Breakfast, Lunch, Dinner | Accommodation: Lodge on the crater rim or in Karatu

Enjoy a final morning game drive in the Serengeti, then depart for the Ngorongoro Conservation Area. This transfer still offers good wildlife viewing along the way, and you may catch some final Serengeti sightings before leaving the plains. Arrive on the crater rim or nearby area by late afternoon. The cooler highland air and changing scenery create a nice contrast to the Serengeti. Rest well tonight, as the next day is one of the top highlights of any Tanzania wildlife safari.

Ngorongoro Crater Game Drive

Day 6

Meals: Breakfast, Lunch, Dinner | Accommodation: Lodge in Karatu or Ngorongoro area

Descend into the Ngorongoro Crater for a half-day or extended game drive on the crater floor. This is one of the best places in Tanzania to look for black rhino, and it also supports large numbers of lions, buffalo, zebra, wildebeest, hippos, and hyenas. Because wildlife is concentrated in a relatively compact area, Ngorongoro is often a defining moment of a Big Five safari Tanzania trip. After your crater safari and picnic lunch, drive back to the lodge for dinner and overnight.
